Venue:
Malabar Cancer Centre, Thalassery

Teaching Faculty

Dr.Dilip C Nath is currently Professor at the Department of Statistics, Gauhati University.

About Course

The main focus of this workshop is on applied work using R software. Underlying theories and methods will be covered briefly in the introduction to the respective topic.

Workshop Objectives

Participants will gain a good introduction to biostatistical concepts, particularly in the context of clinical trials and hypothesis testing. Topics covered will include summary statistics and hypothesis tests, with a heavy emphasis on teaching participants to carry out statistical analysis on their own using R (Statistical Software).

Participants will learn the essential statistical considerations in clinical trials. In addition, various functions of the R will also be taught.

Most Probable Beneficiaries:-This workshop is customized to Students, Researchers and Analysts besides Medical Scientists particularly those dealing with Clinical Research, Medical research and Public Health Professional.

Accommodation:-Participants will have to bear their own expenses for travel, boarding and lodging. Please note that no on campus accommodation will be available.

No. of participants:

Limited to 25 and selection is purely on first cum first served basis.

Registration Fee:-

Registration fee only for Student/ Scholar is Rs.500/-. For other participants Rs. 1000/- . This includes course material, lunch and refreshments. Registration Fee should be paid in full by 30th September, 2015.

How to Pay:-The demand draft should be made in the name of **Director Malabar Cancer Centre, payable at Thalassery (IDBI-Thalassery)**. Please mention your full name as used in the registration form and that you are sending the DD for SURV-15

Internet Banking: Online Internet Banking NEFT transfers can be made the following details sending the DD for **HTCT-15**. Internet Banking: Online Internet Banking NEFT transfers can be
