Dear Colleague,

Greetings from Malabar Cancer Centre

Malabar Cancer Centre is an autonomous institution under Health and Family Welfare Department, Government of Kerala with an aim to establish a hospital, providing the much-required oncology care to the population of North Kerala. The main objective being establishing a modern Cancer Hospital and Research and Training Centre of international standard in treatment and prevention of cancer.

Nursing profession has made long strides since its recognition as an inseparable speciality in medical field. The contributions to the repertoire of practical nursing are hailed all over the world with changing disease trends and advancements in technology. The perception of medical care is also fast changing akin to the aforementioned and changing patterns of expectations of patient clientele. Medical field always looked for improvement in patient care, enhancement of cure rates and prevention of diseases. The comfort of the patient during treatment and evaluation is also important and the nursing care provides major thrust in this area. Small changes in the pattern of care in nursing can influence the outcome of management. Our Nursing service department is conducting a national conference on **"Recent Innovations in Nursing Care – Our Contribution"** to strengthen the oncology nursing care practice.

We invite you all in this unique academic event.
