(A Joint venture by Malabar Cancer Centre & JDT Islam College of Physiotherapy)

Last date of Application
15/06/2025

ABOUT THE INSTITUTIONS

Malabar Cancer Centre, Thalassery (MCC) is an autonomous institution under Health and Family Welfare Department, Government of Kerala, started with an aim to establish a comprehensive cancer centre, providing the much-required oncology care to the population of Northern region of Kerala and neighbouring parts of Karnataka and Tamilnadu states and Union Territory of Pondicherry (Mahe). The main objective of the Centre is not only to provide comprehensive cancer care but also to develop as a Research and Training Centre of International standards. At present MCC has total bed strength of 203 with 170 in-patient beds. MCC is being developed as a postgraduate institute of Oncology sciences and research. It has research association with School of Health Sciences, Kannur University, Centre for Electronic Materials Technology, Thrissur and HTIC-Chennai, various institutions of National cancer Grid etc.

JDT Islam College of Physiotherapy

JDT Islam as an institution established in year 1922 with 100 years of legacy for sheltering and education the orphan children. More than 50,000 orphans and destitute children have been fed, sheltered and educated in hardship and miseries of helpless souls and molding them into responsible citizens by providing better education. Backed by its professionalism, coupled with the experience and expertise the institution has completed its ten long decades of yeoman educational service for the welfare of humanity

JDT Islam college of physiotherapy was established in 2005 as a Direct Centre of University of Calicut as per the Memorandum of Understanding (MOU) to conduct Bachelor of Physiotherapy program. From 2010-11 the college has been developed as an independent self-financing college and it is affiliated to the Kerala University Health Sciences, Thrissur. The Institution aims to provide fast access to expert health care professionals to enable patients to start their recovery without delay.
